Barnbrock Farm is the headquarters of Clyde Muirshiel Regional Park. It is located 4 miles from Castle Semple Centre in the middle of the Renfrewshire countryside.

The park headquarters is also our campsite and residential area in Clyde Muirshiel. We have wooden shielings and a large camping area. The shielings are capable of sleeping 32 people between the 8 units, 2 of which are accessible to special needs clients.

Also available at the campsite is the facilities block, this building has a dining area and a kitchen. The toilets and showers are fully accessible for special needs clients. The campsite can accommodate up to 20 tents and there are separate cooking and washing facilities for campers.

Evening activities can be delivered on site. These range from first aid, team games or a night walk, enhancing the residential experience.

Night paddling or orienteering can be arranged at Castle Semple whilst on a residential stay, contact the senior instructors to arrange this.

The residential site is self catering, although breakfast and lunch can be provided if required.

The facilities block has two cookers and a large fridge/freezer, ample storage and worktop space. The dining area can double as a meeting or games area. However,

if you wish, there is a dedicated training room within the park headquarters building (adjacent to campsite) which is fully equipped with presentation equipment and is ideal as a more formal setting for meetings, lectures or teaching. Tea and coffee can be arranged during office hours in either facility.

The site is located in a quiet spot on the B786 between Lochwinnoch and Kilmacolm and can be booked exclusively for your group. [Click here](#) for a map.

All instructors who work at the centre have national governing body qualifications or receive

appropriate in-house training in the activities they deliver.

Castle Semple Centre is [AALA](#) recognised currently holding a 2 year licence.
